

# TransferMate

GLOBAL PAYMENTS

An international  
payment solution for  
education

Our investors and strategic  
partners include ING and AIB

## HOW IT WORKS?

TransferMate is an easy to use online international payment solution which offers fast, secure and affordable payments. Our service allows international payments to be made via local banking networks. Where TransferMate has a local bank account, we will eliminate international banking charges usually associated with international payments and ensure all payments are referenced for quick reconciliation.

## SIMPLE 3 STEP PAYMENT PROCESS

The sender registers on the secure TransferMate domain and enters their payment details.

The sender receives the exchange rate for that day (valid for 48 hours) and makes payment into the TransferMate bank account in their home country in their local currency.

Once funds are received, payment is immediately transferred to the receivers account from the local TransferMate account in their home country.

## PAYMENT PLATFORMS

TransferMate can offer three different payment platforms to suit your current system.

### **CUSTOMISED PAYMENT PORTAL**

This is a site that TransferMate would host for you on our domain. The link can be customised with your institute's own logo and tailored payment fields.

### **WHITE LABEL EMBEDDED iFRAME**

This option allows the TransferMate system to be hosted on the institute's website as an iFrame where the TransferMate link is simply inserted by IT as 'body text' on an appropriate web page.

### **API/INTEGRATED PLATFORMS**

Full and semi-integration into many management systems for enhanced user experience.

## BENEFITS FOR STUDENTS

- Easy to use payment platform
- Safe and secure way to pay
- Local transfers in own currency - eliminate bank transfer fees
- Preferential FX rate
- Faster payment processing
- 24/7 customer service and online tracking of payments

## SECURITY

TransferMate holds professional indemnity insurance which covers each transaction for up to 5 million euro. All TransferMate accounts are password protected for your security. [www.transfermate.com](http://www.transfermate.com) uses Secure Socket Layer (SSL) and 256 bit encryption to protect client and university/school data ensuring 100% security for all payments.

# REGULATION

As a licensed and regulated institute we protect all funds as follows:

- Hold all client funds in segregated client fund accounts.
- Reconcile client accounts on a daily basis.
- Hold capital against each transaction processed.

We are comprehensively monitored by governing bodies across the globe, including:
